Advanced DJ Performance/Production System

retail
price: \$749.95

package contents

- Xponent
- Power supply
- Printed Quick Start Guide
- USB cable
- M-Audio DJ Series CD-ROM (drivers, full documentation, Torq and Torq Traqs music content)

Torq Xponent is a cutting-edge performance system that brings professional-grade control to the world of the computer-based DJ. Engineered by M-Audio's SynchroScience Design Group, the package includes the Torq DJ software that's revolutionizing digital DJing and the Xponent hardware control surface that puts all that power right at your fingertips. With full-size tactile controls, an integrated USB audio interface and intuitive MIDI-learn capabilities, Torq Xponent bridges the gap between traditional DJ hardware and today's powerful performance software once and for all. This completely integrated system combines the features of a standard two-channel DJ mixer with the controls of a pair of DJ CD players, letting you cue, mix and scratch digital files without touching the host computer.

features

Xponent

- > full-size, professional-grade controllers
- > all hardware controls are pre-mapped to corresponding software functions in Torq
- > 4-output USB audio interface:
 - 4 RCA outputs for independent control of the house system and booth monitors
 - 1/4" TRS headphone output with cue and volume controls
 - 16-bit/48kHz max sample rate
 - ASIO and Core Audio compatible
- > advanced MIDI control surface:
 - mixer controls:
 - 2 vertical volume controls
 - 2 3-band EQ control knobs with kill buttons
 - 2 gain-control knobs with mute buttons
 - horizontal crossfader control with transform buttons
 - 2 LED volume meters

- player controls:
 - 2 touch-sensitive scratch wheels
 - 2 100mm pitch adjust controls
 - built-in touchpad/assignable X/Y control surface for mouse or effect control
 - 8 assignable knobs for effect control
 - 64 assignable backlit buttons, including Play, Cue, Seek, Loop, Key and Sync controls
 - 2 LED progress meters

- > compatible with any software that supports MIDI learn

Torq

- > cue, beat-match and mix digital audio files (including MP3, AIFF, WAV, WMA, Apple Lossless and AAC)
- > works instantly and seamlessly with Xponent or other SynchroScience DJ hardware
- > organizes digital audio files (including iTunes library) into an easily searchable database

- > automatic beat-matching
- > integrated real-time time-stretching/compression
- > 2 virtual decks for loading and playing files
- > 2-channel mixer with 3-band EQ, level control, headphone cueing and crossfader
- > supports optional third-party VST effects
- > snapshot function for instant recall of mixer and effects settings
- > 16-cell, tempo-synced sampler
- > performance recorder
- > instant looping
- > vinyl, CDJ and hybrid emulation control modes
- > controllable via Xponent, mouse, keyboard or other MIDI controller
- > functions as a ReWire slave
- > Mac and PC compatible
